

19 March 1953

MEMORANDUM FOR: Colonel White

1. Personnel's recommendation that the OCD request for T/O revision be approved appears correct. It is stated that OCD has concurred in two changes made by Classification in the proposed T/O. O&M concurrence was given subject to one qualification, namely, that the Publications Procurement Section of the Library Division should not be subdivided into units (Coordination Unit, Covert Order Unit, State Order Unit, Cash Purchase Unit, and Purchase Order Unit). It is argued that setting up these separate units "... will unduly restrict the flexibility of the organization as a whole, and ... could result in unnecessary personnel action."

2. Since each of the units mentioned seems to cover separate and distinct classes of work, it is difficult for me to go along with the O&M viewpoint.
